

Collapsible Reel Assembly Instructions

Part #	Description	Quantity
#110	Wooden Handle	1
#812	Handle Shaft Assembly	1
#828	Nut	5
#829	Screw #10 x 1-1/4"	10
#830	Radius Plate	5
#1522	Cotter Pin 3/32" x 1/2"	1

Radius Plates

Place the #830 radius plate between arms so that the indented portion of the plate is secure on each side. Insert two (2) #829 screws on the outside of the radius plate, the screws should be between the crossbar arm supports. Tighten screws into the #828 nut located on the opposite side of the crossbar arm supports.

Handle

Insert the #812 shaft assembly into the wooden part of the #110 handle so that it is flush against the flat part of the wooden handle. Insert the full handle assembly (#110 and #812) into the small circular opening on the collapsible reel. Insert the #1522 cotter pin on the end of the #812 shaft assembly, locking it into place.

Collapsible Reel Operating Instructions

Unloading/Offloading Coiled Material

Tie coiled material in at least two (2) places (between arms) before collapsing the reel. Collapse the reel by grasping opposite arms and pressing them toward the reel hub. Offload/remove the coiled material to the front of the reel. Return the reel to the starting position by applying reverse pressure on opposite arms until the sliding hub comes to rest against the washer and pin at the front of the shaft.
